The differences in emission rates from the air permit to the EIS submittal were due solely to a change in emission factors for the specified source category.

In the cover letter accompanying the submittal and below, specify for each affected increase: the NEDS ID, SCC, new emission factor, & emission factor used in the current air permit. A brief corresponding explanation should be included on card 30 of the EIS data file.

If the box is checked above, copies of the cover letter and Certification Statement should be sent to the Office of Environmental Compliance, Enforcement Division and Office of Environmental Services, Permits: Title V & General Air Division.

The following section must be completed by ALL facilities in the Greater Baton Rouge Ozone Non-Attainment and Impact Area. This includes the parishes of:
